

**IN THE SPECIFICATION**

Amend the specification as follows.

Delete the paragraph spanning page 5, line 26 to page 6, line 2 and insert the following therefor:

---

b1 - Z represents a C6 to C21 in particular C13 to C21 ~~alkyl~~alkylene radical, optionally with insertion of one or more multiple bonds, and/or of one or more O and/or S heteroatoms, and/or one or more aromatic rings, and the pharmaceutically acceptable salts of these compounds.

---

Page 6, delete the paragraph spanning lines 21-22 and insert the following therefor:

---

b2 In a preferred family of these compounds, Z represents a C13 to C21 ~~alkyl~~alkylene radical.

---
